

URBAN BACKYARD CHICKEN KEEPING CHECKLIST

Lootux.com

Daily Checklist

- ☐ Fresh Water
- ☐ Adequate Food
- ☐ Clean Coop
- ☐ Egg Collection
- ☐ Visual Health Check

Fresh Water: Ensure a clean and accessible water source.

Adequate Food: Provide sufficient feed based on the number of chickens.

Clean Coop: Remove droppings and soiled bedding regularly.

Egg Collection: Collect eggs to prevent breakage and broodiness.

Visual Health Check: Observe chickens for signs of illness or injury.

Weekly Checklist

- ☐ Coop Deep Clean
- ☐ Run Maintenance
- ☐ Check for Pests
- ☐ Inspect Equipment

Coop Deep Clean: Replace all bedding and disinfect the coop.

Run Maintenance: Repair any damage to the run and ensure it's secure.

Check for Pests: Look for mites, lice, and other pests on chickens and in the coop.

Inspect Equipment: Check feeders, waterers, and other equipment for damage or wear.

Monthly Checklist

- [] Dust Bath Refresh
- [] Manure Management
- [] Review Security
- [] Chickens' Weights

Dust Bath Refresh: Replace or replenish dust bath materials.

Manure Management: Compost or dispose of manure properly.

Review Security: Check for vulnerabilities in the coop and run.

Chickens' Weights: Ensure chickens are maintaining a healthy weight.

Essential Supplies Checklist

- Chicken Feed (Starter, Grower, Layer)
- Waterer & Feeder
- Coop Bedding (Straw, Wood Shavings)
- Dust Bath Materials (Sand, Dirt, Ash)
- First Aid Kit (Antiseptic, Wound Care)
- Coop Cleaner & Disinfectant
- Pest Control Supplies (Mite & Lice Treatment)
- Manure Disposal Method (Composter)

Urban Chicken Keeping Tips

- **Check Local Ordinances:** Before getting chickens, review local regulations on backyard poultry.
- **Predator Protection:** Secure your coop and run to protect against predators like foxes, raccoons, and dogs.
- **Noise Control:** Keep chickens in a well-insulated coop to minimize noise pollution.
- **Neighbor Relations:** Be considerate of your neighbors and address any concerns promptly.
- **Waste Management:** Implement a proper manure management system to prevent odors and attract pests.
- **Biosecurity:** Practice good biosecurity measures to prevent the spread of disease.
- **Rodent Control:** Take measures to prevent rodents from being attracted to the chicken coop and feed.

Conclusion

By following this checklist and implementing these tips, you can ensure a healthy and enjoyable experience with your urban backyard chickens.
